Frequently Asked Questions (FAQ)

Q1: What types of fabrics can the Consew 226R sew?

A1: The Consew 226R excels at sewing heavy-duty fabrics such as canvas, denim, leather, upholstery, and other thick materials. Its powerful motor and walking foot system make it

ideal for these challenging fabrics where a standard domestic machine would struggle.

Q2: How do I maintain the Consew 226R?

A2: Regular lubrication with high-quality sewing machine oil is crucial. Clean the bobbin case, hook, and feed dogs frequently to remove lint and dust. Replace the needle regularly and check for any signs of wear and tear on other parts. Always consult the Consew Manual 226R for detailed maintenance instructions.

Q3: Where can I find replacement parts for the Consew 226R?

A3: Replacement parts can often be sourced through authorized Consew dealers, online retailers specializing in industrial sewing machine parts, or through independent repair shops experienced with industrial sewing machines. Knowing the specific part number is essential for accurate ordering.

Q4: What is the difference between a direct drive and belt-drive motor in a Consew 226R?

A4: A direct drive motor provides more power and smoother operation, particularly beneficial for heavy-duty sewing. Belt-drive motors are generally less powerful but often quieter. The specific motor type will depend on the model year and variations of the Consew 226R.

Q5: How do I adjust the stitch tension on the Consew 226R?

A5: The stitch tension adjustment is usually controlled by dials on the machine. Consult your Consew Manual 226R for the exact location and instructions. Proper tension is essential to prevent puckering or broken threads. Adjusting tension often involves balancing the upper and lower tensions.

Q6: Can I use this machine for delicate fabrics?

A6: While capable of heavy-duty sewing, the Consew 226R is not ideal for delicate fabrics. Its powerful motor and aggressive feed system can damage fine materials. For delicate fabrics, a lighter-duty machine is recommended.
